

## Supplement to Credit Application

EFS has received and is processing your application for financing. For one of the following reasons, your financing will not be provided by South Jersey Gas:

- My/our utility provider is not nor will it be South Jersey Gas.
- My/our utility provider is or will be South Jersey Gas but my/our Total Energy Savings (TES) will be less than 20% as a result of the improvements I am making.

However, financing is available to you through the New Jersey Office of Clean Energy Home Performance with ENERGY STAR® Program. So that we may continue to process your application, please sign below acknowledging the following:

I/We understand that EFS and WECC have conducted a credit investigation (authorized by my/our completion of the credit application) based on the information voluntarily provided by me/us. If necessary, I/we further agree to provide additional information to EFS, WECC, or lender of choice, to underwrite my/our loan request. Additionally, if this application is approved and the loan I/we have requested is made, I/we also authorize WECC/EFS to share: my/our electric and/or gas billing account number; the charges payable by me/us under the promissory note that I/we will sign; and other non-public information that I/we provided.
